

PLANTRONICS
Aviation Headsets

The Reliability and Performance that Aviation Professionals Demand

- > **Simple and Safe** Easy-to-use, hands-free communications let you keep your hands on the yoke.
- > **Crisp, Clear Sound** Plantronics delivers greater clarity for in-flight communications with technology proven in America's space program.
- > **Comfort for the Long Haul** Light weight and comfortable, so it's easy to wear even on long flights.
- > **Easy to Talk** Acoustic voice tube design works with your aircraft's built-in mic switches.
- > **More Choices** 8 models mean a perfect fit for every application.

Everything you need for in-flight communications is right here in one unit—no fumbling to hold or handle a microphone when you'd rather be flying. To speak, just use your aircraft's own built-in mic switch.

Get hands-free convenience with a fully adjustable headset that provides optimum transmission and reception clarity.

Available in two headset styles.

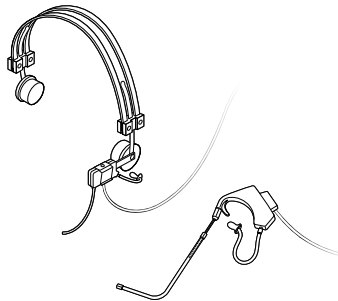

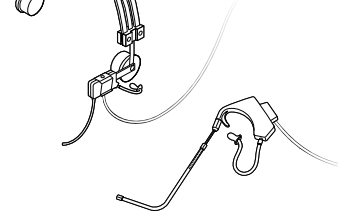

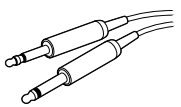

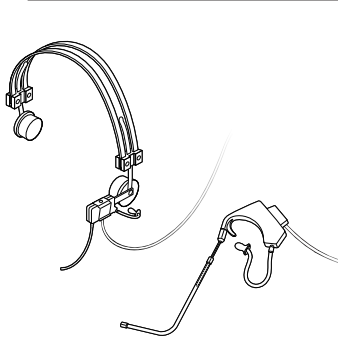

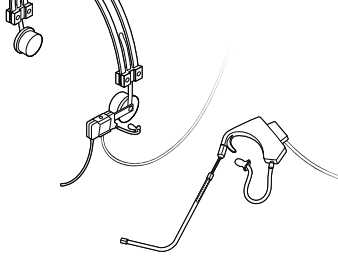

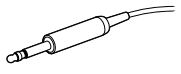

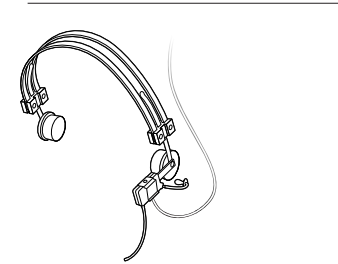

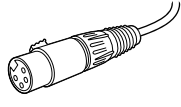

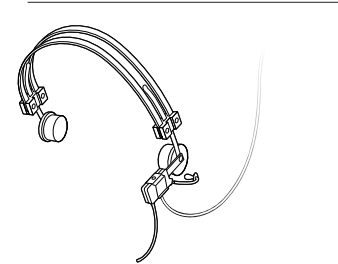

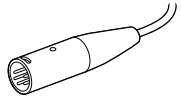

MS50™

StarSet®
